# **moot Documentation**

***Release 0.1***

**Simon Wells**

March 16, 2012

# CONTENTS

Moot is a set of tools for working with arguments and dialogue on the web.

**Visit the Project homepage:**

- <http://siwells.github.com/moot/>

To get the latest development version of moot:

- `git clone git@github.com:siwells/moot.git`
- `git clone https://siwells@github.com/siwells/moot.git`

# GETTING INTO MOOT

Nothing to see here (yet)... just some placeholders... move along...

- Quick Start
- FAQ
- Release
- Blog
- Twitter
- Papers

# DOCUMENTATION

## 2.1 Getting Started

### Contents

- Getting Started
  - What is Moot?

### 2.1.1 What is Moot?

dsfdf

## 2.2 Module Documentation

### 2.2.1 dgdl Module

### 2.2.2 main Module

### 2.2.3 src

dgdl Module

main Module
